PERFECT LIGHT FOR THE LIGHTING PROFESSIONALS

When the best names in film, broadcast and motion pictures want big, beautiful light sources, they choose Chimera. Renowned for top quality design and reliability, Chimera is the first choice for professionals and rental houses worldwide.

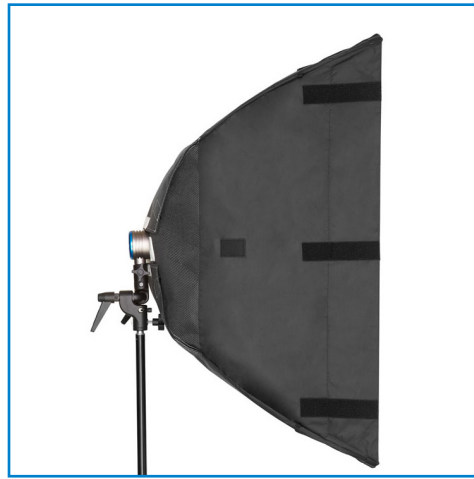

**Video PRO Lightbanks** are used with single broad-beamed, open-faced tungsten fixtures up to 1,200 watts. Shallow and Strip versions are available. Also suitable for strobe lighting.

**Daylite Lightbanks** are exclusive to Chimera. Junior, Standard and Senior Banks have a deep design that is ideal for HMI Fresnels and can handle up to 12,000 watts.

**Quartz Lightbanks** are designed to handle the high temperatures of HMI and tungsten open-faced fixtures up to 12,000 watts. This family of Lightbanks has been the workhorse of the industry for decades.

**Micro LightBanks** work with popular on-camera video lights to bring perfect light to location ENG assignments.

**TL Kits** contain: Small VideoPRO Plus 1 Lightbank, a Triolet, Stand, Stand Adapter and a duffel. TL kits can optionally include Lighttools® Soft Eggcrates® Fabric Grid and a 500 or 1,000 watt lamp.
