PANEL FRAMES

Chimera Panel Frames are the tool that every image maker should have in their lighting kit. Panel Frames can be used as a black-out, reflector or diffuser, providing a wide range of creative uses for the professional image maker.

FRAMES are made of lightweight, strong 5/8" aluminum tubing with die-cast corners. The frames are bungee-corded together to prevent lost pieces.

- Panel Frames collapse compactly
- Available in standard sizes from 24" x 24" up to 72" x 72"
- Frames fit a standard Chimera Grip Head or Panel Clamp for almost unlimited mounting options
- Each frame comes with its own storage bag

FABRIC PANELS come in ten styles:

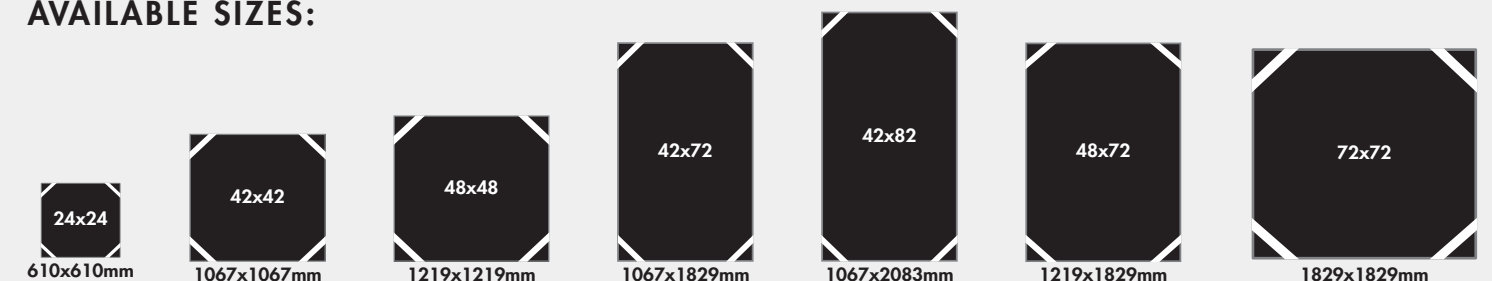

- Full, 1/2, 1/4 diffusion
- Black/silver, silver-gold zebra/soft white, silver/black
- Single and double Bobbinette Scrim
- Chroma and Digi Green, Black Solid

WINDOW PATTERNS easily attach to the frame-mounted holder adding background textures and dimension. Break-ups have never been easier. Use any one or combination of the 18 unique designs to create your own effects. Also available in Kits.

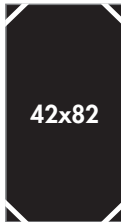

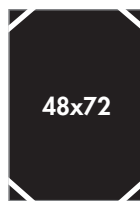

Kits provide everything for a quick setup and easy fold-up breakdown into convenient duffel bag.
